

## NEW LEAMS LOGO!

The new LEAMS logo (shown in the upper right hand corner) was selected by the attendees at the LEAMS Kick-off meeting that was held on March 21, 2002. The design was selected from eight designs created by the Fahrenheit Creative Group, Lansing.

## LEAMS AVAILABILITY

<i>COMPONENT*</i>	<i>ROLLOUT**</i>
Incident	January 2003
Intelligence	April 2003
Crash	July 2003
Citation/Officer Activity	October 2003
Enhancements	February 2004
Interfaces	May 2004

\*All tasks within the LEAMS project have been broken down and placed into six major components. Further details of each component will be available on the web site in May.

\*\*Rollout refers to the anticipated date the component will be ready for release to the field. Actual use of the software at an agency will depend on where the agency falls within the training schedule.

## LEAMS UPDATE

### **Dawn Brinningstaull**

*LEAMS Section Manager*

517/322-5018

On Thursday, March 21, 2002, the Criminal Justice Information Center hosted a LEAMS (Law Enforcement Agency Management System) Kick-Off Meeting. Approximately 40 LEAMS stakeholders from around the state convened at the General Office Building in Lansing where they were brought up to date on the LEAMS project.

Ms. Diane Sherman, Assistant Division Director, opened the meeting by welcoming the attendees. Ms. Dawn Brinningstaull, Project Manager, followed with an introduction of the project team members, a synopsis of the events that led up to the kick off meeting, and a review of contract deliverables. Eight versions of the new logo for LEAMS were presented and the attendees were given the opportunity to vote for their favorite. Mr. Mark Stiegemeier and Mr. Eric Lamb, of MEGG Associates, demonstrated the LEAMS software and highlighted the program's user friendliness. Mr. Wade Dakin, System Operations Specialists, presented the project work plan and summarized the operation of Project Central. Ms. Dawn Brinningstaull ended the program with an overview of the project's communication plan and a schedule of upcoming meetings.

## **WANT MORE INFORMATION ON LEAMS?**

### **Subscribe to the LEAMS LISTSERV**

Anyone who wishes to receive updates to LEAMS can subscribe to our new LISTSERV called 'MSP-LEAMS'. This is an e-mail list server group that will allow the LEAMS project team to communicate with both current AICS users and all other interested parties.

The LEAMS core project team will use the LISTSERV to:

- Post updates on the project.
- Survey current AICS users on functionality.
- Pass along new information on policies or procedures.
- Let subscribers know of upcoming meetings.

Here is how a user can subscribe:

- Send an e-mail to [listserv@listserv.state.mi.us](mailto:listserv@listserv.state.mi.us).
- Leave the 'Subject' box blank.
- Type "subscribe msp-leams" in the message body (do not include the quotes).

After subscribing, users will receive confirmation from MSP that they have been added to the LISTSERV service and basic instructions on how to use the LISTSERV service.

Users should remember that the LISTSERV will provide only one-way communication and they should not reply to messages. All replies will be rejected by LISTSERV.

For questions or assistance on the LISTSERV, please contact Bill Timmer at 517/322-5042.

### **NEW EMPLOYEES**

Ms. Phylena Kline is the new LEAMS Section secretary. Phylena comes to us from the Michigan State Police, Technical Solutions Division. Prior to working for the Technical Solutions Division, Phylena worked in the Criminal Justice Data Center, Statistical Information Section.

Ms. Betsy Defeyter joins our team as a new analyst. Betsy will be responsible for development and testing of the LEAMS software. She previously worked at the Training Division's Precision Driving Unit. Her MSP career started in the Traffic Services Division.

Mr. Rick Ludy has been temporarily assigned to work on the data conversion for LEAMS. Rick will be overseeing the extraction of the existing AICS and STATIS data from the mainframe and moving it to the new LEAMS Oracle database. Rick works in the Department of Information Technology, Information Technology Division.

## LEAMS WEBSITE

A web site has been established for the LEAMS project. The site currently provides descriptive information about the LEAMS project and the kick-off meeting. Future plans are to post status updates, share meeting minutes, provide a contact list of the Project Team members, and post a summary of the LEAMS work plan. To access the LEAMS site, go to [www.Michigan.gov/msp](http://www.Michigan.gov/msp).

In the 'search' box in the upper right hand corner of the web page, type 'LEAMS project' (do not include the quotation marks). Click on the 'GO' button and select the link titled LEAMS Project.

For those of you who like to type or who prefer to cut and paste, you may also enter [www.michigan.gov/msp/1,1607,7-123-1589\\_3493\\_8224-20347--,00.html](http://www.michigan.gov/msp/1,1607,7-123-1589_3493_8224-20347--,00.html) directly into the Location field (URL) and hit your Enter key on the keyboard.

## TRAINING FACILITIES AND INSTRUCTORS WANTED

LEAMS training for incident and case management portion is scheduled to begin in October 2002. Preliminary inquiries are being made to provide options for the training schedule. Those agencies with computer facilities (20 workstations or more) that may be used for little or no costs are requested to contact Tip Hood, Migration and Training Analyst at 517/322-5034.

Also being sought are local agency personnel who are interested in being trained as trainers for the new system. Tip Hood will also be compiling the list of instructors. Please call him at 517/322-5034.

## **AICS SUCCESS STORIES**

### ***Mt. Pleasant State Police Post:***

On March 5, 2002, an armed gunman shot and killed three people outside the Isabella County courthouse. Eyewitnesses at the scene provided police with a possible suspect name and vehicle.

Sergeant Larry Schloegl at the Mt. Pleasant State Police Post ran the vehicle and suspect in LEIN. LEIN came back with an expired driver ops and an address that hadn't been updated.

The post secretary, Terri Stolicker did a person search in AICS. AICS came back with an address on the suspect from an October 2001 complaint in AICS.

Sergeant Schloegl dispatched troopers to the suspects' house and found the suspects' vehicle parked in the driveway. The troopers secured the area until the Emergency Support Team arrived on the scene.

The suspect was taken into custody without further incident.

### ***Owosso State Police Post:***

On April 9, 2002, fire swept through the Owosso Michigan State Police Post. The building was nearly a total loss. The troopers on duty had only time to remove the weapons and evidence files.

However thanks to AICS, all incident records were safe on the mainframe computer at MSP HQ in East Lansing.
